**Syntactic and Phonological Processing
in Developmental Dyslexia**

Proefschrift

ter verkrijging van het doctoraat in de
Letteren

aan de Rijksuniversiteit Groningen

op gezag van de

Rector Magnificus, dr. F. Zwarts,

in het openbaar te verdedigen op

donderdag 10 juni 2004

om 14.45 uur

door

Judith Elisabeth Rispens

geboren op 10 juli 1972

te Soest

Promotores: Prof. dr. F. Zwarts
Prof. dr. J. Hoeksema
Copromotor: Dr. P.H. Been
Beoordelingscommissie: Prof. dr. Y.R.M. Bastiaanse
Prof. dr. A. van der Leij
Prof. dr. D. Saddy

Contents

Chapter 1	Introduction	1
	1.1 Introduction	1
	1.2 Outline	3
Chapter 2	The language basis of developmental dyslexia	5
	2.1 Introduction	5
	2.2 Language skills in developmental dyslexia	5
	2.2.1 The phonological deficit theory	5
	2.2.1.1 Auditory perception	7
	2.2.1.2 Verbal working memory	8
	2.2.1.3 Rapid naming	11
	2.2.2 Vocabulary development	11
	2.2.3 Grammatical development in developmental dyslexia	13
	2.3 Toward an explanation of grammatical limitations in developmental dyslexia	15
	2.3.1 A delay in reading experience causes a delay in grammatical development	15
	2.3.2 Grammatical limitations are epiphenomena of phonological processing problems	16
	2.3.3 Grammatical limitations are independent of phonological deficits	19
	2.4 Grammatical deficits in another population: developmental dyslexia compared with SLI	22
	2.4.1 SLI and developmental dyslexia: two syndromes or one?	22
	2.4.2 Grammatical impairment in SLI: modular or non-modular?	26
	2.5 Conclusions	27
Chapter 3	Research aims and questions and some notes on subject-verb agreement	29
	3.1 Research aims and questions	29
	3.2 Some notes on subject-verb agreement in Dutch	32

Chapter 4	Investigating precursors of developmental dyslexia in kindergarten: sensitivity to subject-verb agreement, phonological awareness, rapid naming and letter knowledge	35
	4.1 Introduction	35
	4.2 Phonological processing as a predictor of reading success	36
	4.3 Syntax as a predictor of reading success	38
	4.4 Research questions	41
	4.5 Methods	42
	4.5.1 Subjects	42
	4.5.2 Materials	43
	4.5.2.1 Phonological abilities	43
	4.5.2.2 Sensitivity to subject-verb agreement	44
	4.5.3 Procedure and data analysis	46
	4.6 Results	46
	4.6.1 Phonological abilities	46
	4.6.2 Grammaticality judgement task	48
	4.6.2.1 Effect of violation	50
	4.6.3 The results reinterpreted a year later	50
	4.6.3.1 Relations between predictors of reading success	51
	4.7 Discussion	52
	4.8 Conclusions	55
	Appendices	57
Chapter 5	Sensitivity to subject-verb agreement, phonological processing and literacy skills in children with language impairments	61
	5.1 Introduction	61
	5.2 Study 1	61
	5.2.1 Introduction	61
	5.2.2 Research questions	63
	5.2.3 Method	63
	5.2.3.1 Subjects	63
	5.2.3.2 Materials	65
	5.2.3.3 Procedure and data analysis	69
	5.2.4 Results	71

5.2.4.1 Reading tasks	71
5.2.4.2 Grammaticality judgement task	72
5.2.4.2.1 Effect of violation	73
5.2.4.2.2 Spontaneous speech	73
5.2.5 Discussion	75
5.3 Study 2	75
5.3.1 Introduction	75
5.3.2 Two opposing views on morphosyntactic deficits in SLI	80
5.3.3 Dyslexia and SLI: is there a difference?	84
5.3.4 Research questions	84
5.4 Method	85
5.4.1 Subjects	85
5.4.2 Materials	86
5.4.2.1 Grammaticality judgement task	86
5.4.2.2 Reading tasks	86
5.4.2.3 Phonological tasks	86
5.4.3 Procedure and data analysis	89
5.4.4 Results	90
5.4.4.1 Grammaticality judgement task	90
5.4.4.2 Results of reading tasks	92
5.4.4.3 Results of phonological tasks	92
5.4.5 Relationships between morphosyntax, phonological processing and literacy	95
5.4.5.1 Predictors of word decoding ability	96
5.4.5.2 Predictors of sensitivity to subject-verb agreement	97
5.4.5.3 Non-word repetition and morphosyntactic ability	98
5.4.6 Discussion	99
5.4.7 Conclusions	107
Appendices	108

Chapter 6	Brain responses of dyslexic adults to syntactic violations in spoken language: An ERP study	113
6.1	Introduction	113
6.1.1	Event-related brain potentials	113
6.1.2	ERPs in developmental dyslexia	116
6.1.3	Goals of present study	117
6.2	Methods	118
6.2.1	Subjects	118
6.2.2	Materials	119
6.2.3	Procedure	121
6.2.4	EEG-recording	122
6.2.5	Data analysis	123
6.2.5.1	Behavioural data	123
6.2.5.2	ERP data	123
6.3	Results	124
6.3.1	Behavioural data	124
6.3.2	The ERP data	124
6.3.2.1	Phrase structure violations	124
6.3.2.2	Subject-verb agreement violations	128
6.3.2.3	Peak latency	138
6.4	Discussion	139
6.4.1	ELAN	139
6.4.2	P600	140
6.5	Conclusions	144
	Appendices	145
Chapter 7	Summary and conclusions	155
	References	163
	Samenvatting	175
